### About Me

Dedicated and detail oriented Web Developer with one and a half year of experience in IT industry, seeking to work in a creative role where I can use my skills to solve real-life problems and design attractive and compelling websites. Eager to obtain a challenging position in a prestigious company that will expand my learning and build upon my developer skills.

### Personal Projects

#### **Portfolio website:** [prithwish.free.nf](http://prithwish.free.nf)

- Built a responsive portfolio website from scratch using HTML, CSS & JavaScript.
- Used CSS animations and typed.js for visual appeal.
- Created a contact form to capture the user response in a google sheet.

#### **Weather webapp:** [weatherquery.free.nf](http://weatherquery.free.nf)

- Responsive weather app with current weather and 4 day weather forecast for any city.
- Used Openweather API for weather details.

### Work Experience

#### **Backoffice Production Support**

Feb 2021 – July 2022

Tata Consultancy Services, Kolkata

Client: McGraw Hill Education

Technologies used: OTMM, UTC, Oracle SQL

#### Roles and Responsibilities:

- Helped resolve transparency issue in .png and .psd images in DAL.
- User account and access management, handling user requests, testing user accounts.
- Stopping and starting services during patching and deployment.
- Importing and exporting assets and databases.
